1.模型汽車軸心 model of automobile shaft

用於模型汽車、沙灘車避震器軸心
Suitable for model of automobile,
and beach bicycle's shock shaft.

2.小馬達軸心 micro motor shaft

用於事物機，食品空調，機械等馬達
Suitable for office machine, air-conditioner,
and machinery's motor.

3.特殊材質軸心 special material shaft

材質SUS630適用於汽車零件

Material SUS630

Use on Automobile components

4.極微小軸心 Super micro diameter shaft

適用於手機，數位相機，望遠鏡

Suitable used for digital camera, cell phone,
and telescope etc. components.

專業高精密軸心製造

Professional Precision Axis Manufacture

Our company was established in 1992, and due to keeping on constant development and research as well as patronage from our customer, our product has been widely adopted by production industry with goodwill.

We produce professional shafts. Such as AC.DC. fan shafts, CD-ROM motor shafts, Micro motor shafts, Various motors, the home appliance motor shaft, car axis with various types of motors, various gears, worm, various of 3C products and various hardware components etc.... All of our products are custom with the drawing. We also provide perfect quality and prompt delivery.

Under development for the export marketing, basing on excellent quality and perfect after-service, this makes our export business is gradually improved year by year.

We already pass the ISO-9001, enhance the quality. Our business principle is continuous quality improvement to provide our customers satisfactory products. In the future we will increase our equipment for production. And provide the best professional shafts to our customers.

5.各式零件車削 various of turning products
適用於各式家電、馬達、機械產品
suitable used for various home appliance, motor, machine products etc.

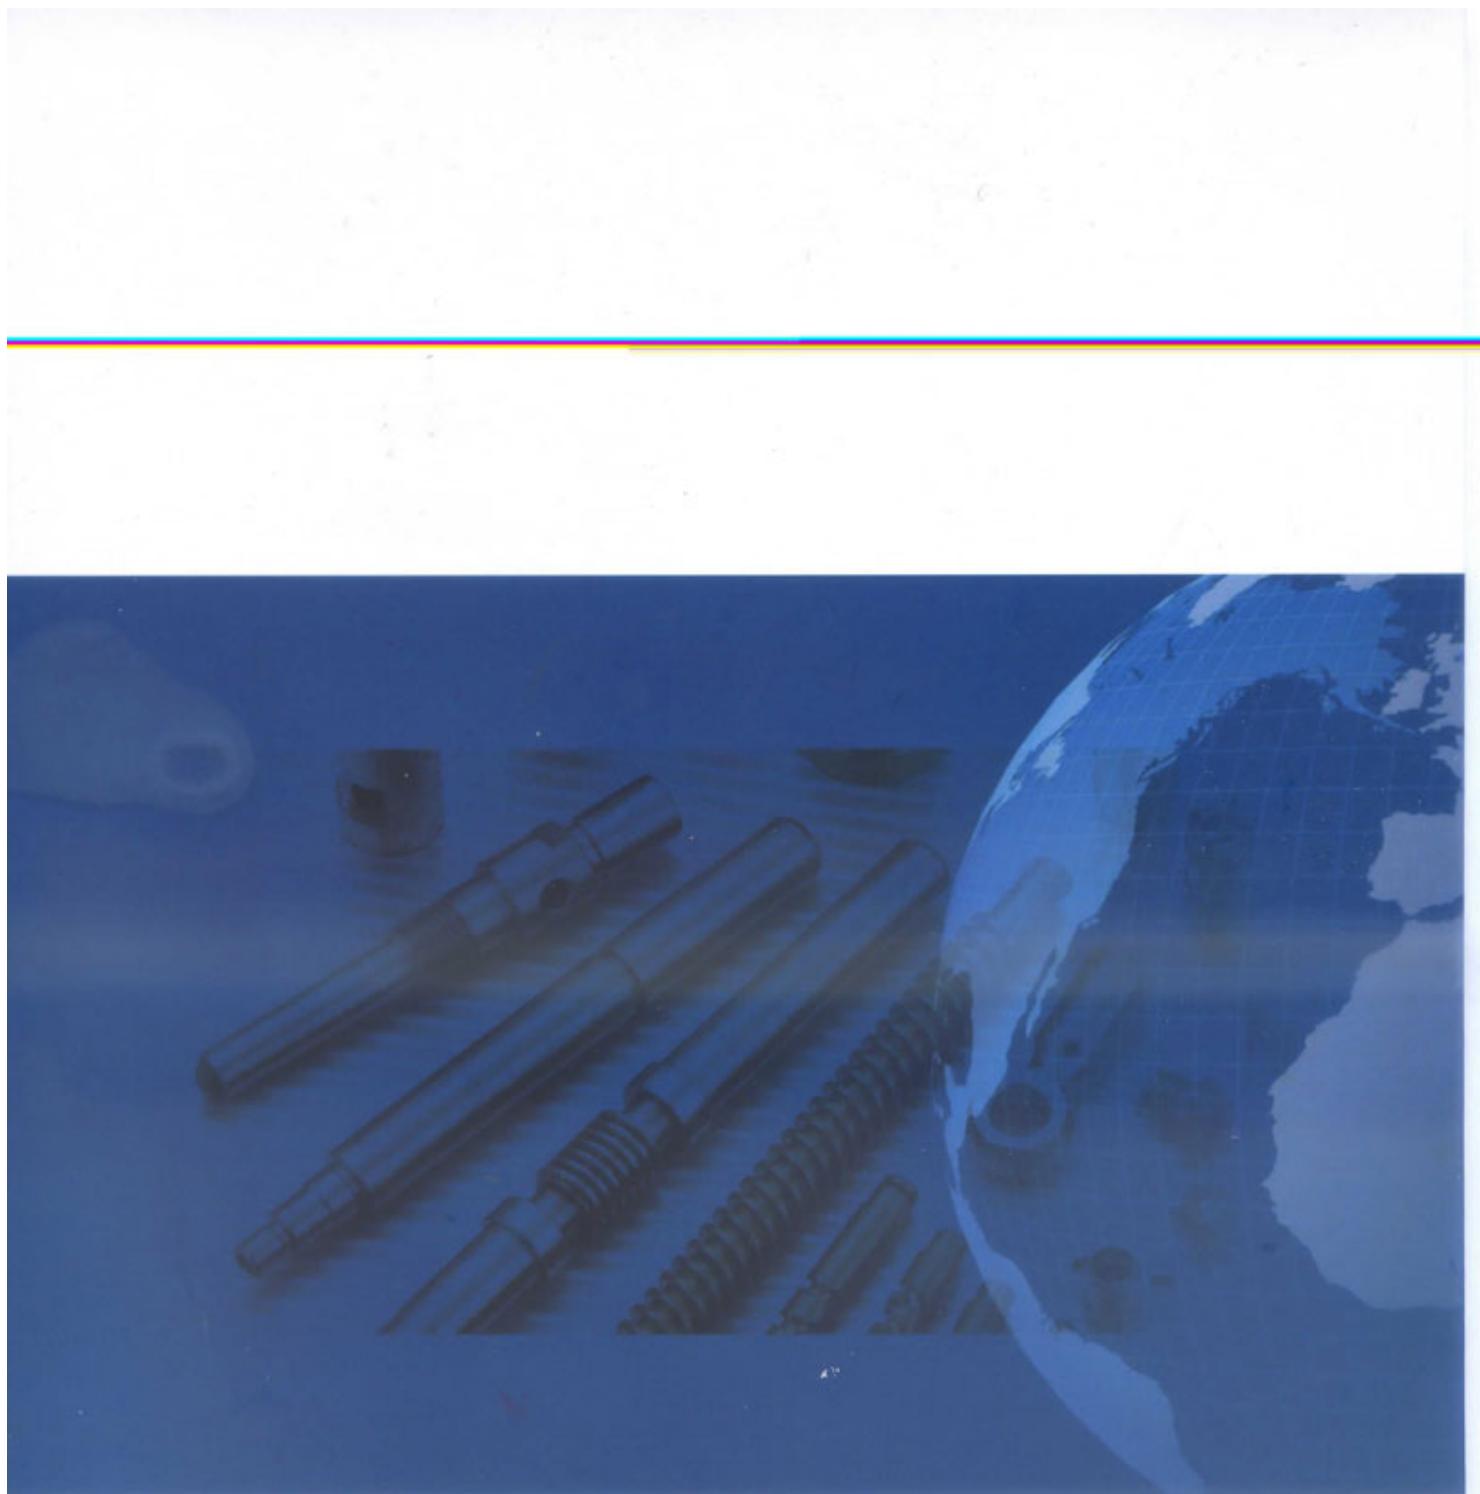

6.汽車用馬達軸心 automobile motor shaft
適用於汽車各類馬達軸心。天窗、電動椅、中控鎖等
suitable used for various automobile motor such as sun roof, power locks, power window etc.

7.主軸馬達軸心 main motor shaft
適用於光碟機主軸馬達，CPU散熱系統
Suitable used for CD maker main shaft and CPU cooler system.

8.車削零件類 Turning products
材質：銅，鋁，不銹鋼，塑膠，快銷鋼...等
適用於各機械馬達
Material: copper, aluminum, stainless steel, plastic..etc.
Suitable used for various machinery motors
